Why choose Chirpee Flowers?

Concept Design

We make your vision come to life!

Master Florist

Chelsea Gold Medal

Chelsea Flower Show Judge

Our experienced staff are on hand to talk you through all the details and are able to create your dream wedding, from the low key and understated to a luxury lavish celebration.

We can create all styles from wild and abandoned to strictly classic and formal.

After an introductory call, we can offer a meeting at our workshop in West Sussex. We then create mood boards and provide flower suggestions for the season of your wedding.

Every wedding is unique and your detail becomes our obsession.

" It is a rare gift to be able to interpret dreams so they are even better in reality "

Laurie Marley

" Choose your florist carefully - they absolutely make the atmosphere of the wedding. Steph & Tim at Chirpee Flowers made the impossible happen, where others would have said: 'it can't be done'. They made dreams come true; it's worth making them central to your budgeting."

Alison & Peter

"We want to thank you ever so much for our beautiful and most spectacular flowers. We were so pleased with them. Everyone commented on how amazing they were".
